WEB DEVELOPMENT

Slaves of Allah Web Technologies develop websites at affordable rates with attractive designing. Website development is done by professional developers experienced in web designing and developing in various technologies. Our developers are certified by ORACLE University in creating dynamic websites.

We develop web applications for different purposes with an attractive designing. We develop our websites with fluid designing that make your website look better and attractive. We provide maintenance of websites too.

We offer our customers the best price and work they would have hardly experienced so far. We have a number of satisfied clients so far who have made their business into a brand by their presence in Internet.

Technologies Used:
HTML | CSS | JS | BOOTSTRAP | .NET | AJAX | PHP | MYSQL | MYSQLi

ANDROID DEVELOPMENT

Android development is done by professional android developers. We develop Android Applications which are rare in Kashmir. Every organisation's technological ecosystem has to completely align itself with the business road map. Our Android Applications are designed to cater all the necessity of the business field and impress your customers simultaneously. Recently our venture developed some android apps like MEALZHUB & LOST N FOUND (First Android Applications of Its kind in J&K) that were listed in many News Portal, Wesbites, National News Channel, Local newspapers etc.

Technologies Used:
JAVA | ECLIPSE | ANDROID STUDIO | AJAX | XML | PHP | JSON | MYSQL | MYSQLi

SOFTWARE DEVELOPMENT

Software development is also done in an attractive way. We have software developers that can customize software development solutions. Our customized software development enables you to cater all the specific needs for your company or business. We have so far created softwares for some institutes and companies with no bugs at all.

Technologies Used:
VISUAL STUDIO | C# | JAVA | XML | MYSQL | ORACLE

DIGITAL MARKETING

Digital marketing, also called online marketing or Internet advertising, is a form of marketing and advertising which uses the Internet to deliver promotional marketing messages to consumers.
We have different ways to make your Business grow. We use SEO (Search Engine Optimization) to increase your ranking in Google search engine with most visible & effective keywords. You can also use Adwords , Best Marketing Tool that brings your targeted customers to your website. We assure you of a full promotion of your websites / business as per our plan. Google keeps an eye for a content , so as to increase its rating for that purpose you need a best content for your website. And our company offers you the best content too that has been accepted by Google so far.

Techniques Used:
SEO | SEM | SMM | ADWORDS

CONTENT WRITING

Our Content Writers are known as one of the most reputed content writers in J&K , when it comes to content writing services, Our content is accepted by Google as Google keeps an eye on content that is listed in your websites. We dont like copy paste content , nor does our content writers do so. We provide Professional, Effective, Unique content.

Content Listed on:
Greater Kashmir , Rising Kashmir , Kashmir Life , Kashmir Monitor , Morroco World News

GRAPHIC DESIGNING

Graphic Designing is somewhat not to be understood , it should itself make the client understand what they actaully need. We're a team of youthful, intelligent and dedicated creatives who have an unrivalled energy and passion for creating brands. Our roster of clients, impressive portfolio of work, prominence in local markets and international reach have made us among the most famous graphic designing companies in Kashmir.

Softwares Used:
PHOTOSHOP C6 | ILLUSTRATOR | CORAL DRAW

LOGO DESIGNING

Logo design is an important area of graphic design, and one of the most difficult to perfect. The logo (ideogram) is the image embodying an organization. Because logos are meant to represent companies brands or corporate identities and foster their immediate customer recognition, it is counter productive to frequently redesign logos.
Our Logo Solutions provides you with Logo's that will amaze your users, our logos are so addictive that one can't resist clicking them. We have designed Logos for companies and these logos have made a great differences to their Brands.

Softwares Used:
PHOTOSHOP C6 | ILLUSTRATOR | CORAL DRAW

HOSTING & DOMAIN

A web hosting service is a type of Internet hosting service that allows individuals and organizations to make their website accessible via the World Wide Web. We provide hosting solutions, SSL certifications to your existing hosted websites or fresh websites. We also provide hosting solutions or back up hosting to your web data.
Domain Registration also is done here. We have our personal premium domains that can be used as for new innovative startup domains at a very cheap price.
By default we provide atleast 5 Business Domain Emails with cheapest hosting plans.

CUSTOMISED DATA CONVERSION

We provide Customised Data Feed solutions that removes the burden of manual data entry and file formatting by automating the process of turning data from inventory spreadsheets, database exports, webstore exports, supplier and product catalog directly into Marketplace.
We also provide Transcription from Non-Digital media to Digital Media.
